(3 hours before the universe's creation)
Dear diary
The Kaxarovicans brought me into existence recently and they gave me this name “Kalaxion Maltia”. They explained to me what their species are, they told me we have 3 hearts And they also created this diary for me. I don't Know why but they said to me that I can document my life and they also said that in 3 hours, they are going to create the universe.

(10 minutes after the universe's creation)
Dear diary
They finally created the universe and they made so many planets including earth and our own home planet called Malsi and it is very beautiful. It has red grass, green sky, a red sun, Black Palaces, Golden Bridges and Green rivers. Then my people created more Kaxarovicans in Malsi so it will become a civilization of our race.

(10 days after the universe's creation)
Dear diary
Today a strange race entered our home planet on a ship that looks gigantic. They have pale skin, Pure red eyes with no irises and they have 10 fingers and toes. They called themselves “Kalisons” and they told us they were created yesterday on their planet Mantio by their own creator but they didn’t tell us his name and they used their powers to destroy everything while everyone was running and hiding from them and now I know they are the most dangerous race in the universe. The lord President of Malsi called Kolaxion walked towards them and he used his powers to send them back to Mantio. Kolaxion then started to rebuild everything in Malsi by using his creation manipulation and I was looking at the sky with hatred and anger against these monsters.

Date: June 21st 587 BC
Dear diary
On August 19th 591 BC, we had our 1st Kaxarovican war which was between my people and these inhuman creatures known as Kalisons and I had no mercy against them whatsoever because of what they have done to this planet and my people. I snap their necks, i tore out their eyes, i ripped out their legs, their jaws, their arms and their tongues, i altered reality into a whirlwind that can destroy their bodies completely and i bashed their hands onto the floor over and over and over again, smashing their faces into oblivion. Then Yesterday the war ended while The Kalisons are now traumatized by me. And they should be.

Date: March 2nd 566 BC
Dear diary
Today I left Malsi and I went to earth to Greece in athens. Then while I was walking, I bumped into this 29 year old woman and I told her my name and she told me her's. Her name is Glindia Maxxon and I told her about my race and where we came from. Then we talked about our likes and dislikes. She has long blond hair, Green eyes, fair white skin and a long white hooded robe and I know she is beautiful but I don't have any romantic feelings for her.

Date: April 10th 563 BC
Dear diary
For 2 years, me and Glindia had drinks of beer at some pubs in Athens, we danced and sang some folk songs together and we just had a pretty good life together. I think this is the first time I had a human friend with me, someone I can share my secrets with, Someone that can make me feel less alone. I still have my family, my people but Glindia is just. I don't know. I really don't know.

Date: June 21st 558 BC
Dear diary
Last year on April 1st, Glindia catched a terrible sickness. I don't know what it is but I know it's killing her, making her cough uncontrollably, making her eyes bleed and her nose. She keeps vomiting and it sickens me to the core that she is suffering like this. Then on May 26th last year, the sickness got worse and worse until it killed her. Now i lost my only friend i ever had.

Date: April 19th 557 BC
Dear Diary
I still keep hearing Glindia coughing and vomiting inside my head, I keep seeing her die over and over and over again in my mind. And Everytime i tried to sleep in my bedroom in the black palace, I kept hearing and seeing her, dying and coughing and vomiting over and over and over and over and it just wouldn't stop. I just hope it will leave me alone.

Date: May 7th 1910
Dear diary
It's been so many years since I've written in this diary and I fought so many Kaxarovican wars against these creatures that I don't know of but I’m really terrified of. They're not “Kalisons” no. They're something far far worse than them. Anyway I also fought Gods, creatures that can warp reality like us and of course The Kalisons. The ones that are terrified of me, the ones that called me many names like “The beast of Malsi” “Death itself” “The cruel tyrant” and “The Bringer of destruction” i think The bringer of destruction is my favourite nickname of all the universe.

Date: September 20th 1943
Dear diary
Today our lord President of Malsi “Kolaxion” Announced they are going to make a time Machine called The Malacakliot and they said it will not be finished until the date “April 26th 1965” and they also said they need to test it. I really don't know what else I have to put in this diary. Maybe I can write some more next year or if I feel like it.

Date: April 26th 1965
Dear diary
Finally the time Machine has finished and it looks very huge and metal. But there are 20 of these Malacakliots and then Kolaxion went inside the original Malacakliot and then he disappeared and 4 minutes later, he reappeared here. He said that he travelled back to the year 1897 and we applaud at his magnificent creation. Well, he has his helpers to work for him.

Date: April 10th 8026
Back on April 27th 1965, I went inside the 2nd Malacakliot and it looked beautiful. The walls are painted Golden, there are many hallways and on the controls, there are the dates and times I can choose. And so I chose to go to April 10th 8026 then I travelled into the future. I landed on this huge spaceship and right in front of me was a window which showed that the sun is being expanded and then I saw something that surprised me. Earth and all the planets including my home “Malsi” started to explode into nothing and then the universe started to end. Many stars have vanished and then it becomes a black void again.

(9 days after the universe's creation)
Dear diary
Inside The Malacakliot, I chose to go back to the day where The Kalisons were created, I travelled back into the past and now I am on the planet Mantio. The planet has a lot of mist and smoke and it's surrounded by sand. Right in front of me was a Golden palace so I went inside it. Then right in front of me was The creator of The Kalisons who is using his power to create the creatures that are afraid of me. I was hiding from them Because i don't want them to spot me and I also don't want to change the flow of time because I first met them on Malsi when they destroyed everything. Then I heard something, The Kalisons said his name “Bolaxian” and Bolaxian said to them to bring One of The Civilians in Mantio because he wanted to test something. So they brought a Civilian with them who is a young 26 year old man and they did something terrible. Bolaxian ordered them to kill him and they did it without hesitation. This is going to be my last and final Diary entry Because i’m not going to write anymore diary entries. So goodbye.
